

LANCASTER

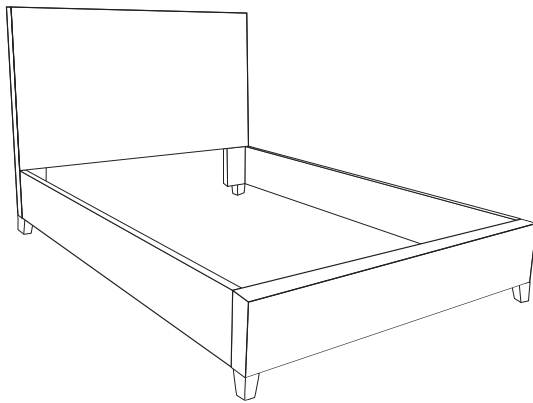

100 SERIES BEDS & HEADBOARDS

Select any Lancaster 100 Series Bed or Headboard style and enjoy a beautifully crafted piece of furniture. All beds and headboards are constructed from kiln-dried maple, engineered strandboard and soy-based foam/cotton paddings. Headboards project 4" in thickness and can be embellished with nail trim, welt, tufting and more.

LANCASTER 100 Series HEADBOARDS

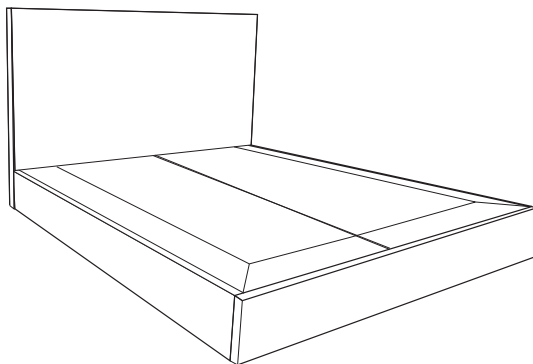

Headboards include fully upholstered legs. To receive hardware and pre-drilled legs, call for a template to specify bracket positioning. When ordering, specify a Lancaster steel bedframe to go with your headboard and receive hardware and pre-drilled legs for easy installation. Welt is applied to the front and back edges of the headboard.

LANCASTER 100 Series STANDARD BEDS

Use with mattress and boxspring/foundation

Lancaster Standard upholstered beds begin with the selection of a 100 Series headboard. Frames are designed for a boxspring to rest inside the rails and footboard. Beds include a steel slat and multi-leg system, for maximum strength and sturdiness. 2"W side rails and 3"W footboard are 15"H including a 4"H leg. Welt is applied to the front and back edges of both the headboard and footboard.

LANCASTER 100 Series PLATFORM BEDS

Use with mattress only

Lancaster Platform Beds offer a more contemporary look with 2"H recessed legs in Matte Black finish. For use with mattress only, our padded and upholstered dual platform rests on a steel slat and multi-leg system, for maximum strength and sturdiness. 2"W side rails and footboard are 12"H from the floor including legs. The platform sits at 11.5"H from the floor. Welt is applied to the front and back edges of both the headboard and footboard.
